

MEMBERS OF THE GENERAL ASSEMBLY *SAVE MANUELA'S HEALTH CARE*

Manuela depends on her health care to keep her diabetes under control.

But she and hundreds of Connecticut children are going to lose their health care coverage because the State is short-changing benefits for their parents, the hard-working cleaners at state buildings.

Members of the General Assembly, you can save these children's health care by overriding the Governor's veto of the bill to protect state cleaners' benefits.

Manuela's health is in your hands.
