

Health Care for RoseMarie

Dear Governor Rell,
Senate President Williams and House Speaker Donovan,

I am writing to ask you to save my daughter's health care. My daughter RoseMarie and hundreds of other children are about to lose their health care because state agencies are underfunding benefits for their parents - the cleaners who keep state buildings running.

Denying children health care should not be part of Connecticut's 2009 agenda.

As you and your families celebrate the opening session at the Capitol, show your commitment to all Connecticut families by saving our children's health care.

Sincerely,

Juan Valenzuela
Office Cleaner at the Connecticut State Capitol
