

HOW MANY HOURS OF WORK DOES IT TAKE TO PAY THE BILLS IN FAIRFIELD COUNTY?

*"Even with a second
job, it's still hard
for me to make
ends meet."*

*—Pedro Alba
Stamford office cleaner*

Pedro Alba works day and night cleaning office buildings in order to provide a better future for his son. Still, rent for a small studio apartment often breaks his budget.

That's why Pedro and 1,800 office cleaners in Fairfield County are fighting for a raise that will help them get ahead of the rising cost of living.

Fairfield County's real estate market—now home to some of the world's most exclusive financial services firms—can afford to provide a fair raise to the workers who keep the buildings running.

Pedro Alba and other Fairfield County cleaners are employed by cleaning contractors that serve the Fairfield County real estate industry.
