

# COVID-19 TESTING

## INFORMATION FOR 32BJ MEMBERS IN NEW JERSEY

### WITH HEALTH INSURANCE (NOT THROUGH 32BJ)

Testing for COVID-19 is widely available in New Jersey

Requirement vary by testing locations but most locations will require you to make an appointment for a test

If you have health insurance through an insurer that is not the 32BJ Health Fund, here are the steps you should take to get a test.

#### 1. Find a testing site near you

- Lists of testing site locations for Essex, Hudson, Bergen and Union Counties are available on 32BJ's website and from your union rep.
- These lists include:
  - Over 80 testing locations (addresses, phone numbers, opening hours and details for appointments)
- Testing locations in all counties can be found on these websites:
  - <https://my.castlighthealth.com/corona-virus-testing-sites/>
  - <https://go.allclear.app/map>

#### 2. Call your insurer to confirm if the testing site is “in-network” and whether there will be out of pocket costs for the test or the visit for the test

#### 3. Call the testing location

Confirm:

- a. What information is needed from you to make an appointment?
- b. Can you access the testing site on foot, or is it drive through only?

Based on the answers, if you are able to get a test: make an appointment

#### 4. Get the test

Arrive at the testing site on time with the necessary documentation **and remember to wear a mask!**
